INTRODUCTION:

In most regions around the world, including Australia, it is illegal for any person (or company) to ask two or more persons to invest in a shared **business** venture, property or other investment, without complying with legal rules set down by the Corporate Regulator.

Austpac Venture Capital (AVC) is able to assist small and medium sized enterprises (SMEs) wishing to raise debt or equity funding for business development or expansion.

AVC has developed a unique and legally compliant Internet-based private securities trading exchange platform known as a **Private Trading Exchange**, or PTX. [Download explainer PDF.](#)

The completed PTX shall be transferred to and hosted on a server nominated by the Applicant.
